14. Which mammal lives both in water and on land?

15. Why are goats referred to as herbivores?

16. In which way is a cheetah and a giraffe different in terms of their feeding?

17. How do herbivorous animals obtain food?

18. Give one example of a ruminant.

19. Why is abomasum referred to as a true stomach of ruminants?

Below is a foot of a certain animal. Study and use it to answer question

20. Name the group of mammals where the animal with such a foot belong.

21. Name one example of an insectivore.

22. Why is an elephant shrew called a nocturnal?

23. How are insectivorous animals able to get food?

24. Why does a hedgehog curl into a ball when frightened?

25. Apart from curling, how else does a hedgehog protect itself?

26. Why are bats classified as mammals yet they have wings?

27. What shows that bats are mammals yet they have wings?

28. Name one mammal that can dodge obstacles at night using echoes.

29. How are bats able to find their way and food?

30. Give one way how bats can help to control diseases.

31. In which one way are bats useful to crop farmers?

ALCOHOL, SMOKING AND DRUGS

1. What is alcohol?

2. Give any one type of alcohol.

3. State any one way in which methyl alcohol is dangerous to man.

4. Mention any one method of producing alcohol.

5. What term is used to refer to as the process of turning sugar added to water into alcohol?

6. Name the fungal organism used during fermentation.

7. Write down any one reason why people drink alcohol.

8. Give any one example of alcohol which can be brewed by fermentation method.

9. State any one use of alcohol in the society.

10. Name the method of making alcohol shown in the diagram below.

11. What process is taking place at M?

12. What is the use of cold water in the beaker?

13. What is the scientific name for the substance labeled **A**?

14. Why is the delivery tube always coiled in the beaker containing cold water?

15. Who is an alcoholic?

16. Define the term "Alcoholism"

17. Identify any one body organ which is damaged due to too much drinking of alcohol.

18. How can you as a P.6 pupil help your friend who drinks alcohol to stop the habit?

19. Identify the poisonous gas contained in tobacco.

20. Give any one harmful effect of tobacco smoking to pregnant women.

21. Name the addictive drug found in tobacco.

22. Describe what passive smoking is.

23. Write down one harmful effect of active smoking to an individual.

24. Identify the poisonous substance contained in tobacco.

25. Define the term a drug.

26. Explain any one characteristic of essential drug.

27. What is drug prescription?

28. How important is it for one to use prescribed drugs?

29. State any one danger of self-medication.

30. Why should drugs be kept out of reach of children?

31. (a) Give any one effect of alcohol to the following;

(i) An individual

(ii) The family

(iii) Community

- (b) Write down any two laws related to drinking alcohol in Uganda.
(i) _____
(ii) _____
32. (a) What is smoking?

- (b) Give any two reasons why people smoke?
(i) _____
(ii) _____
- (c) List down any two respiratory diseases caused due to heavy smoking.
(i) _____
(ii) _____
33. (a) What is drug abuse?

- (b) State any two reasons as to why some people drug abuse.
(i) _____
(ii) _____
- (c) List down any two examples of drugs normally abused by people.
(i) _____
(ii) _____
34. (a) What are laboratory drugs?

- (b) Identify any two qualities of laboratory drugs.
(i) _____
(ii) _____
- (c) Give any one example of a traditional drug.

- (d) Mention any one danger of buying drugs from markets or shops.

THE CIRCULATORY SYSTEM

1. Identify any one organ of the circulatory system.

2. In which body cavity is the heart located?

3. What is the main function of the heart in the circulatory system?

4. Name the main vein in the body.

5. What type of blood is carried by pulmonary vein?

6. Why does blood go to the lungs before it circulates to all body part?

7. What special name is given to the upper chambers of the heart?

8. Why do the left cardiac muscles of the heart have thicker walls than the right one?

9. How are valves important in the heart?

10. State the main function of the red blood cells in the body.

11. What makes the red blood cells red?

12. What is the combination of hemoglobin with oxygen called?

13. Explain one way in which red blood cells are adapted to their function of carrying oxygen to all body tissues.

14. What is double circulation?

15. Name the blood vessel that transports digested food from the ileum to the liver.

16. What happens to blood when it passes through the kidney?

17. Name the vein which transports deoxygenated blood from the kidney to the venacava.

18. Below is the structure of a blood cell, name it.

19. Name part marked **T**.

20. What is the function of the cell drawn above?

21. Who is a blood donor?

22. Why is Sir William Harvey remembered in the history of science?

23. How important is a stethoscope to a doctor?

24. State any one function of blood in the human body.

25. Which component of blood helps in clotting blood in wounds or cuts?

26. Give one functional difference between red blood cells and white blood cells.

27. What disease results from a deficiency of iron in the body?

28. Name any one disease related to blood.

29. Which blood cells are attacked by HIV/AIDS?

30. Give one way of maintaining the proper working of the circulatory system.

31. (a) Name the blood vessels drawn.

(b) Give any two differences between vessels H and I.

(i) _____

(ii) _____

(c) How important are the valves in blood vessel I?

32. (a) State two ways how physical body exercises are useful to the circulatory system.

(i) _____

(ii) _____

(b) Why is it important to screen blood properly before transfusion is done to another person?

33. **Use the diagram of the human heart to answer questions that follow.**

a) Name the blood vessels marked;

(i) A _____

(ii) C _____

(iii) D _____

(b) What type of blood is carried by blood vessel **B**?

MATHEMATICS

SET CONCEPTS

Listing subsets

- * An empty set and the given set are subsets of any set.
- * The list starts with an empty set and ends with the set itself.

Example

List subsets of the given sets

- | | |
|---------------|-------------------------------------------------------------------|
| (a) $\{2\}$ | (b) $\{m, t, n\}$ |
| $\{\}, \{2\}$ | $\{\}, \{m\}, \{t\}, \{n\}, \{m,t\}, \{m,n\}, \{t,n\}, \{m,t,n\}$ |

Finding number of subsets

We use a formula (2^n) where n stands for the number of elements in the given set.

Example 1

Find the number of subsets of set A if $A = \{w, x, y, z\}$

$$\begin{aligned}
 \text{Number of subsets} &= 2^n \\
 &= 2^4 \\
 &= 2 \times 2 \times 2 \times 2 \\
 &= 16 \text{ subsets}
 \end{aligned}$$

Example 2

Study the Venn diagram below and use it to answer questions that follow.

a) Find;

(i) $n(D)$

$$D = \{0, 2, 1, 5\}$$

$$n(D) = 4$$

(ii) $C \cup D$

$$C \cup D = \{4, 6, 8, 0, 2, 1, 5\}$$

b) Find $n(D \cap C)$

$$D \cap C = \{0, 2\}$$

$$n(D \cap C) = 2$$

c) Find the number of subsets of set $(C - D)$

$$(C - D) = \{4, 6, 8\}$$

$$\begin{aligned}
 \text{Number of subsets} &= 2^n \\
 &= 2^3 \\
 &= 2 \times 2 \times 2 \\
 &= 8 \text{ subsets}
 \end{aligned}$$

The shaded region on the Venn diagram below is;

Application of sets in real life situation

The word **both** is used to mean **intersection**.

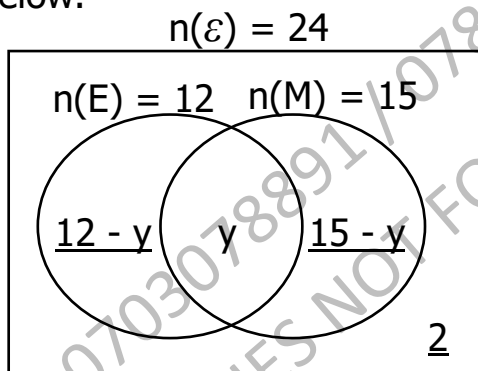

The word **neither** is used to mean the **complement of the union**.

Given two sets X and Y: the statement 'either set X or set Y or both X and Y' is used to mean **union**.

Example

In a class of 24 pupils, 12 like English (E), 15 like Mathematics (M), y like both subjects while 2 like neither of the two subjects.

- (a) Use the given information to complete the Venn diagram below.

- (b) Find the value of y

$$\begin{aligned}
 12 - y + y &= 15 - y + 2 = 24 \\
 12 + 15 + 2 - y + y - y &= 24 \\
 29 - y &= 24 \\
 29 - 29 - y &= 24 - 29 \\
 -y &= -5 \\
 -1 \quad -1 \\
 y &= 5
 \end{aligned}$$

- (c) Find the number of pupils who like mathematics only.

$$\begin{aligned}
 15 - y \\
 15 - 5 \\
 10 \text{ pupils}
 \end{aligned}$$

- (d) How many pupils like only one subject?

$$\begin{aligned}
 (12 - y) + (15 - y) \\
 (12 - 5) + (15 - 5) \\
 7 + 10 \\
 17 \text{ pupils}
 \end{aligned}$$

Activity

1. On the Venn diagram below, shade

- (a) $A \cup B$

- (b) $K \cap L$

- (c) $P - Q$

- (d) $K - M$

- (e) $(D \cup B)'$

- (f) $(M \cap N)'$

2. Describe the shaded region on the Venn diagram below.

3. Describe the un shaded regions.

4. Study the Venn diagram below.

Use the Venn diagram to find:

(i) $n(Q)$

(ii) $P \cup Q$

(iii) $n(P \cap Q)$

(iv) $n(Q - P)$

4. Given that $K = \{a,b,c,d,e,f,g\}$ and $L = \{a,e,i,o,u\}$. Find

(i) $n(M \cup N)$

(ii) $n(N - M)$

5. Given that $K = \{0,2,4,6,8,10\}$ and $L = \{1,2,3,4,5\}$

(a) Represent the above information on the Venn diagram below.

Find $K \cap L$ then $n(K \cup L)$

6. List all subsets of each of the following:

(a) $\{0,2\}$

(b) $C = \{7,5,3\}$

7. Find the number of subsets of each of set $X = \{0,2,4,6,8\}$

8. Find the number of subsets of a set with;

(a) 4 elements

(b) 3 elements

9. Given that $n(A) = 10$, $n(B) = 15$, $n(A \cap B) = 6$ and $n(A \cup B)' = 3$

(a) Complete the Venn diagram below.

(b) Find

(i) $n(A \cup B)$

(ii) $n(A \cap B)'$

(iii) $n(\mathcal{E})$

10. In a group of 30 boys, 13 play football (F), 16 play volleyball (V), x play both games while 5 play neither football nor netball.

(a) Use the given information to complete the Venn diagram below.

(b) Find the value of x .

(c) How many boys play only one game?

(d) If a boy is picked at random from the group, find the probability that he plays volleyball only.

WHOLE NUMBERS

Formation of numerals using digits.

Example

Teacher Frank had card with digits as shown below.

The least and greatest 5-digit numeral that can be formed using the given digits is;

Least 5-digit numeral is **40568**

Greatest 5-digit numeral is **86540**

Place value of each digit in the greatest 5-digit numeral.

Place value of each digit in the least 5-digit numeral.

TTh	Th	H	T	O
4	0	5	6	8

Let us expand the greatest 5-digit numeral using place values and values

(i) using values

TTh	Th	H	T	O
8	6	5	4	0

$$(8 \times 10000) + (6 \times 1000) + (5 \times 100) + (4 \times 10) + (0 \times 1)$$

$$\underline{80000 + 6000 + 500 + 40}$$

(ii) using place values

TTh	Th	H	T	O
8	6	5	4	0

$$(8 \times 10000) + (6 \times 1000) + (5 \times 100) + (4 \times 10) + (0 \times 1)$$

$$\underline{(8 \times 10000) + (6 \times 1000) + (5 \times 100) + (4 \times 10)}$$

Activity

1. Write the place value of 2 in;

(a) 342807

(b) 432

2. Given the digits; 5,1 and 9.

a) Form the greatest and the least 3-digit numeral using the above digits

b) Work out the sum of the largest above the least 3-digit numerals formed above

2. Give the place value of each digit in the numerals.

a) 248

b) 96,217

3. Represent the following on the abacus

a) 231

b) 30547

4. Work out the sum of the value of 9 and the value of 7 in 87,692

5. Write the following numbers in words,

i) 842

ii) 693

iii) 9048

iv) 320813

.....

6. Write the following in figures;

a) Ninety five.

b) Three hundred forty two.

c) Fourteen thousand, nine.

7. Expand 6702 using place values and powers of ten

a) using place values

b) using values

8. Find the number whose expanded form is

$$(2 \times 10^4) + (8 \times 10^3) + (3 \times 10^1) + (9 \times 10^0)$$

9. Round off as instructed;

a) 3654 to the nearest tens

b) 48219 to the nearest thousands

10. Complete the table below correctly.

Hindu Arabic numerals	_____	98	109	_____
Roman numerals	XXIV	_____	_____	CMXLVI

11. Alex has XLIX books in her bag. Write this in Hindu Arabic numerals.

12. Express 42_{ten} into base five

13. Change 23_{five} to base ten

OPERATIONS ON WHOLE NUMBERS

1. Find the sum of 709 and 126.

2. Subtract 79 from 81.

3. Find the difference of 1967 and 969.

4. Containers K and L have 7469 litres of milk and 6974 litres of milk. How much milk is there altogether?

5. Akello had shs 17500 and he lost shs 1850. How much did she remain with?

6. Add:
$$\begin{array}{r} 2\ 3\ 4\ 9 \\ +\ 4\ 9\ 6 \\ \hline \end{array}$$

7. Work out:
$$\begin{array}{r} 3\ 9\ 6\ 9 \\ -\ 2\ 7\ 3\ 4 \\ \hline \end{array}$$

8. Divide $6,069 \div 7$

9. Multiply 243×14

11. Mukasa's poultry farm produces 6000 eggs in a day. If the eggs are packed in trays of 30 eggs each, how many trays of eggs does he produce in a week?

12. John wrote a four-digit number using the digits 1, 4, 7 and 0.
(a) Form the largest number from the above digits.

(b) Work out the sum of largest and the smallest number formed.

(c) Work out their difference.

13. If a father had 312000/- and he shared it among his three sons equally, how much did each get?

14. Work out using lattice method

(a) $2727 \div 9$

(b) 1274×125

NUMBER PATTERNS AND SEQUENCES

Finding consecutive numbers

Consecutive numbers are numbers next to each other in a sequence.

Example

The sum of three consecutive odd numbers is 63. Find the numbers

Let the first number be n

1 st No.	2 nd No.	3 rd No.	Sum
n	$n+2$	$n+4$	63

Value of n

$$n + n + 2 + n + 4 = 63$$

$$n + n + n + 2 + 4 = 63$$

$$3n + 6 = 63$$

$$3n + 6 - 6 = 63 - 6$$

$$\frac{3n}{3} = \frac{57}{3}$$

$$n = 19$$

$$1^{\text{st}} \text{ number} \rightarrow n = 19$$

$$2^{\text{nd}} \text{ number} \rightarrow n+2 = 19+2 \\ = 21$$

$$3^{\text{rd}} \text{ number} \rightarrow n+4 = 19+4 \\ = 23$$

The numbers are 19, 21 and 23

(b) Find the range of the numbers.

$$\text{Range} = \text{Highest value} - \text{Lowest value}$$

$$= 23 - 19$$

$$= 4$$

Activity

1. List down all the factors of 30.
2. Write down the common factors of 12 and 18.
3. Prime factorise 24 and show your answer in power form.

4. Find the value of $2^5 - 3^3$.

5. Write 64 in powers of 2.

6. Find the value of y^2 if $y = 7$

7. Find the value of $2^3 + 4^2$

8. Find the next number in each of the sequences below;

(a) 2, 3, 5, 7, ____

(c) 1, 3, 6, 10, 15, ____

(b) 4, 6, 8, 9, ____

(d) 1, 4, 9, 16, 25, ____

9. Write a set of the first five

(a) composite numbers

(b) even numbers

10. Work out the lowest common multiple (LCM) of:

(a) 12 and 8

(b) 15 and 10

11. The LCM of two numbers is 144 their GCF is 12 and one of these numbers is 48. Find the other number.

12. The sum of 3 consecutive whole numbers is 36. What are the numbers?

13. The total of three consecutive even numbers is 102.

(a) Find the numbers

(b) Find the range of the numbers

14. In a class there are two bells. One for lower rings every after 30 minutes and for upper which rings every after 40 min if they first rung at 8:30a.m.

(a) After how many minutes will they ring together again?

(b) At what time will they ring together again?

15. Work out the square root of the following.

a) 144

b) 225

c) 196

RELIGIOUS EDUCATION

Answer Either Christianity or Islamic questions but not both question on a number

1. Either: Why did God save Noah from the floods?

OR: Why did Allah save Nuhu from the floods?

2. Either: Who was the mother of Jesus?

OR: Who was the mother of Prophet Isa?

3. Either. On which mountain did Moses receive the Ten commandments?

OR: On which mountain did Prophet Muhammad receive the first revelation from Allah?

4. Either: State the importance of Baptism to a Christian.

OR: State the importance of Shahada to a Muslim.

5. Either Why do Christians pray when they are about to sleep?

OR: Why do Muslims pray when they are about to sleep?

6. Either: Name the book in the Bible in which God gave Adam power to rule over other creatures.

OR: Name the holy book in Islam that was revealed to Prophet Musa.

7. Either: What does God want us to do to those who wrong us?

OR: As Allah fearing child, what can you do to a person who has offended you?

8. Either: Mention the people Moses led out of Egypt.

OR: Name the people Prophet Musa led from Slavery in Misir.

9. Either: Why was baby Jesus Taken to Egypt?

OR: Why did Prophet Muhammad escape from Mecca to Medina?

10. Either: What title is given to the head of an Anglican church in Uganda?

OR: what title is given the head of all Muslims in a county?

11. Either: Name the angel who revealed the Good news to Mary.

OR: Name the angel who revealed the Qur'an to Prophet Muhammad.

12. Either: How did Stephen meet his death?

OR: How did Sumayyah meet her death?

13. Either: How did God save Noah from the floods?

OR: How did Allah save Nuhu from the floods?

14. Either: Mention the prophet in the Bible who was swallowed by a fish.

OR: Mention the prophet in Islam who was swallowed by a big fish.

15. Either Name the first of the Ten Commandments of God.

OR: Give the last pillar of Islam.

16. Either: Why did Jesus choose the twelve disciples?

OR: What was the role of the caliphs of Prophet Muhammad?

17. Either: How did Jesus show love to the sinners?

OR: How did Prophet Muhammad treat the woman who attempted to poison Him?

18. Either: What event marks the end of the Lent period?

OR: What ceremony marks the end of Ramadhan?

19. Either: Why did Judas Iscariot hang himself after betraying Jesus?

OR: How were the followers of Prophet Muhammad mistreated?

20. Both: Give one way in which a P.6 pupil can care for the needy.

21. Either: a) What is a sin?

b) Give any one example of sin according to Christianity.

c) State any two effects of sin.

i) _____

ii) _____

OR: a) What is a sin?

b) Give any one example of sin according to Islam.

i) _____

ii) _____

22. Both: a) What is suffering?

b) Give any two forms of suffering.

i) _____

ii) _____

c) State any one way of reducing suffering.

23. Either: a) How were the following people related to Jesus Christ?

i) John the Baptist

ii) Virgin Mary

b) Give two values that Christians can copy from the life of Jesus Christ.

i) _____

ii) _____

OR: How were the following people related to Prophet Muhammad?

i) Ali Abu Talib

i) Aminah

b) Which two lessons do we learn from Prophet Muhammad?

i) _____

ii) _____

24. Either: a) In which way did Adam and Eve fail to live according to God's standards?

b) _____

c) Give one way in which each of the following was punished by God.

i) Adam

ii) Eve

OR: a) In which way did Adam and Hawah fail to live according to Allah's standards?

b) _____

c) State one way in which each of the following was punished by Allah.

i) Adam

ii) Hawah

25. Either: a) What is a talent?

b) Mention any two examples of talents given to people by God.

i) _____

ii) _____

c) How do people use their talents to benefit other?

OR: a) What is a talent?

b) Write any two examples of talents given to people by Allah.

i) _____

ii) _____

c) How do people use their talents to benefit other?
